You can file and pay these taxes with your Sales and Use Tax return electronically starting December 12, 2011. You will use our online tax management system instead of FTP. The format has also changed.

Follow these steps to test your TC-62Y and TC-62Z templates:

1. Download and save the template (below)
2. Enter the test information and save the file in .xls format
3. Email the file to tax.forms.testing@utah.gov
4. Wait for Tax Commission approval before uploading real (non-test) returns
